Company: [Name]

Group: [Label]

Number of participants: [Number]

Period: [Period]

How to read the report

The report is anonymized and shows the group. All values are self-reported by the participants. They say something about how the group experienced the insoles. They are not proof of an effect. The report shows values only for the whole pilot group, not for subgroups.

The four questions

1. Wear rate

Question: "Are you still wearing the insoles?"
Value: [Value from your pilot]

2. Noticeable improvement

Question: "Do you notice a difference compared to before?"
Value: [Value from your pilot]

3. Recommendation

Question: "Would you recommend them?"
Value: [Value from your pilot]

4. Appreciation

Question: "Do you feel valued by this offer?"
Value: [Value from your pilot]
